

OCCHIO

Mito Largo

Occhio's Mito Largo lamp is characterised by a circular head that floats atop a tapered, minimalist carbon body. Combining intuitive controls with features such as colour tone, the luminaire is offered in six refined surfaces including rose gold, bronze, matte gold, matte silver, matte black and matte white, while the carbon body is available in white or black. Thanks to its sophisticated mechanism, the luminaire head can also be set at three heights.

HOAD & MORE

Infinity Light

Hoad & More's Infinity Light ceiling was born out of a collaboration with multidisciplinary firms WAGT and MBLD at Al Bustan Palace, A Ritz-Carlton Hotel in Oman. The system – made up of a series of metre-squared luminaires – was introduced by the British lighting consultancy to create a feeling of height within the property's Al Khiran restaurant area, and when looked into from below gives the illusion of a never-ending space.

TRIBU

Monsieur Tricot

Designed by Ilia Eckardt for Tribù, the Monsieur Tricot lighting collection merges traditional craft techniques with high-performance outdoor materials and modern technology. The globe and drop lights provide a warm glow and cast elegant shadows, while the hanging and standing lamps are offered in colourways of white, linen, brick, moss and wengé – the latter can be easily operated by a user-friendly app, enabling the lamps to be grouped with timer functions.
